Verse 2:

Responsibilities have changed as I grew up, the car is up on blocks, the headlights gather dust
I still look at her sleek lines, I know she doesn't look her best but I remember the raw power, she always passed the test
Yeah, the time will come when time allows a restoring caress, reflecting on my timeline & dissipating stress

Chorus 2:

Oh, it's funny how that car meant so much to me I didn't want a Plymouth Road Runner, or Dodge Super Bee
All those old memories, they inspire and they haunt the good and bad, symbolized in that old Beaumont

Chorus 3:

Oh, it's funny how that car meant so much to me I didn't want an El Camino, GTO or Chev Caprice
All those old memories, they inspire what we want the good and bad, symbolized in that old Beaumont

Verse 3:

I know the time will come when we take our final cruise, a one way ticket out, no regrets, nothin' to lose

Outro:

G Am
Yeah, that Beaumont is our legacy, a symbol we can use

Chorus 4:

I think I finally know what that car meant to me Still don't want a fancy Mustang, or supercharged Hemi
F G C
All those old memories, they keep rising to the front a montage of my life, symbolized in that old Beaumont
