**Verse 2:**

These wars date back to the middle ages a disease that's passed through time  
 Through the hearts of loved ones who have sacrificed a trail of broken lives  
 Faith perverted, just can't be the chosen track  
 We must fight from within, but make no mistake, know that we'll fight back

**Chorus:**

\*A moment to appreciate each other's side\*

**Verse 3:**

Mankind's future hangs in the balance, all of our children will pay the cost  
 Generations burdened with senseless acts, a bright future that could be lost  
 Faith needs to be restored, an old mantra to break this deadly trance  
 Remember all we are saying is give peace a change.

**Chorus**

**Outro: (see music)**
