Intro F#m A G D

Verse 1

You can take whatever you want
 From Buddha's text or an Athiest
 Faith based on violence
 That's not the word of God

Not the word of Allah

From the Bible or Koran
 They're all just words of man
 It's just not how it's meant to be
 Not Buddha or you and me

Chorus

Give us peace
 Allow us peace
 It's a war where no one wins
 A recipe

A chance to bridge these great divides
 A moment to understand each other's side
 A fool's game to begin
 For unrewarded suffering

Verse 2

These wars dates back to the middle ages
 Through the hearts of loved ones who have sacrificed
 Faith perverted
 We must fight from within

A disease that's passed through time
 A trail of broken lives
 Just can't be the chosen track
 But make no mistake
 Know that we'll fight back

Chorus

Give us peace
 Allow us peace
 It's a war where no one wins
 A recipe

A chance to bridge these great divides
 A moment to appreciate each other's side
 A fool's game to begin
 For unrewarded suffering

Verse 3

Mankind's future hangs in the balance
 Generations burdened with senseless acts
 Faith needs to be restored
 Remember

All of our children will pay the cost
 A bright future that could be lost
 An old mantra to break this deadly trance
 All we are saying
 Is give peace a chance

Chorus

Outro

Let's all remember Lennon's words
 Remember All we are saying

All we are saying
 Is give, give peace a chance
