

LOUISIANA RAIN

Author: Tom Petty and the Heartbreakers

Intro D G

Verse 1

Well it was out in Cal..i..fornia by the San Diego sea
That was when I was taken in and it left its mark on me
Yeah she nearly drove me crazy with all those China toys
And I know she really didn't mean a thing to any of those sailor boys

Chorus 1

Louisiana rain Is falling at my feet
Baby I'm noticing the change as I move down the street
Louisiana rain Is soaking through my shoes
I may never be the same when I reach Baton Rouge

Verse 2

South Car..o..lina put out its arms for me
Right up until everything went black somewhere on Lonely Street
And I still can't quite remember who helped me to my feet
Thank God for a love that followed the angel's remedy

Chorus 2

Louisiana rain Is falling just like tears
Running down my face, washing out the years
Louisiana rain Is soaking through my shoes
I may never be the same when I reach Baton Rouge

Verse 3

Well I never will get over this English refugee
Singing to the jukebox in some all-night beanery
Yeah he was eating pills like candy and chasing them with tea
You should have seen him lick his lips, that old black mollied beak
