 You get to work late and the boss man's giving you hell

 'Til you're out on a midnight run Losin' your heart to a beautiful one

 And the world is busting at its seams And you're just a prisoner of your dreams

 Holding on for your life, 'cause you work all day to blow 'em away in the night

A A_{sus4} A E A A_{sus4} A E
 The rat traps filled with soul crusaders The circuits lined and jammed with chrome invaders

 And she's so pretty that you're lost in the stars As you jockey your way through the cars
 D F#m Bm B E E E
 And sit at the light, as it changes to green, with your faith in your machine, off you scream into the night

 And you're in love with all the wonder it brings And every muscle in your body sings
 F#m Bm B E E E
 As the highway ignites, you work nine to five and somehow you survive 'til the night

 Hell all day they're busting you up on the outside And tonight you're gonna break on thru to the inside

 And it'll be right, it'll be right and it'll be tonight

 And you know she will be waiting there And you'll find her somehow, you swear

 Somewhere tonight you run sad and free Until all you can see is the night
