Author: Ron Davison – 19 (September 2010)

**Intro** C Em G

## Verse 1

I can't Remember the last time I woke up crying  
The slow motion tear Burning an emotional Scar through my right eye

## Chorus

She was one of the family More than a pet, she was a friend to me  
I'm gonna miss her I just can't believe

## Bridge 1

The house is so empty So quiet now  
I know I'll find peace I just don't know how  
I remember the phone call The instant pain  
The words trapped in my throat The time lost in my brain  
The long drive home Through the pouring rain  
Wishing it's a dream But it's all in vain

## Verse 2

She lived her short life To the fullest A constant smile on her face  
Always the first one To greet you At the end of the day

## Chorus

She was one of the family More than a pet, she was a friend to me  
I'm gonna miss her I don't want to believe

## Bridge 2

She touched all of us She's burned in our mem'ry  
We'll be thankful for the time Once we've had time to grieve  
I wish I could hold her And pet her soft fur  
This is my good-bye I loved you, Grr

## Chorus

She was one of the family More than a pet, she was a friend to me  
I'm gonna miss you I still can't believe

## Outro

We're gonna miss her We love you, Grr
