

TAKE ME BACK

Author: Bonnie Tyler

Intro G_m E^b B^b E^b B^b

Verse 1

You said it's over now, it's just not right You said there's a better place for you to be, it's not with me
 Then you turned and walked away I can't believe what I see
 And I can't go to sleep at night When I think of how it used to be, 'cause Baby

Chorus

He can't give you what I've got And he can't stop your pain And he can't love you the way I do
 God I want you back again Maybe he could try with money Or he could buy you clothes
 But baby when it's dark And you're home at night Does he ever hold you close

Verse 2

He takes you out in style, he treats you right, he gives you all the things I never could, he's so good
 But don't you think of me, baby late at night, and I just can't take it girl, 'cause together we could be so right

Chorus

He can't give you what I've got And he can't stop your pain And he can't love you the way I do
 God I want you back again Maybe he could try with money Or he could buy you clothes
 But baby when it's dark And you're home at night Does he ever hold you close

Bridge 1

Take me back (*Ooh you're gonna need me*) (*Ooh you're gonna need me*)
 Take me back (*Ooh you're gonna need me*) Ohhh, all those things we did before
 Whatever happened to them And all those things I've been living for, gotta start 'em all over again

Verse 3

You said it couldn't last That we were meant to part A girl like you and a guy like me
 Didn't stand a chance, not from the start But then you looked at me I had to ask you why
 And you'll see I tried to find out why you left me for those hungry eyes, Baby

Chorus

He can't give you what I've got And he can't stop your pain And he can't love you the way I do
 God I want you back again Maybe he could try with money Or he could buy you clothes
 But baby when it's dark And you're home at night Does he ever hold you close

Outro

Take me back (*Ooh you're gonna need me*) Take me back (*Ooh you're gonna need me*)
