Intro G C F D

Verse 1

I've travelled through this country
Of misery and despair
And now all I want
Is for Wild Wind to blow there

Chorus

Wild Wind blow this misery away
Wild Wind blow do just as I say
Wild Wind blow 'til the pains of life are gone
Wild Wind blow and show us what went wrong

Verse 2

The clouds of death hang around us
Waiting for our last prayer
And once they've done their work
Nothing will ever move there

Chorus

Wild Wind blow this misery away
Wild Wind blow do just as I say
Wild Wind blow 'til the pains of life are gone
Wild Wind blow and show us what went wrong

Verse 3

If people stopped their fighting
And tried to understand
To stop this senseless killing
And help their fellow man

Chorus
