

the JT government is not capable of leading us back to recovery.

OPPS-8 Lies or Incompetence (or both)??? – Round 2

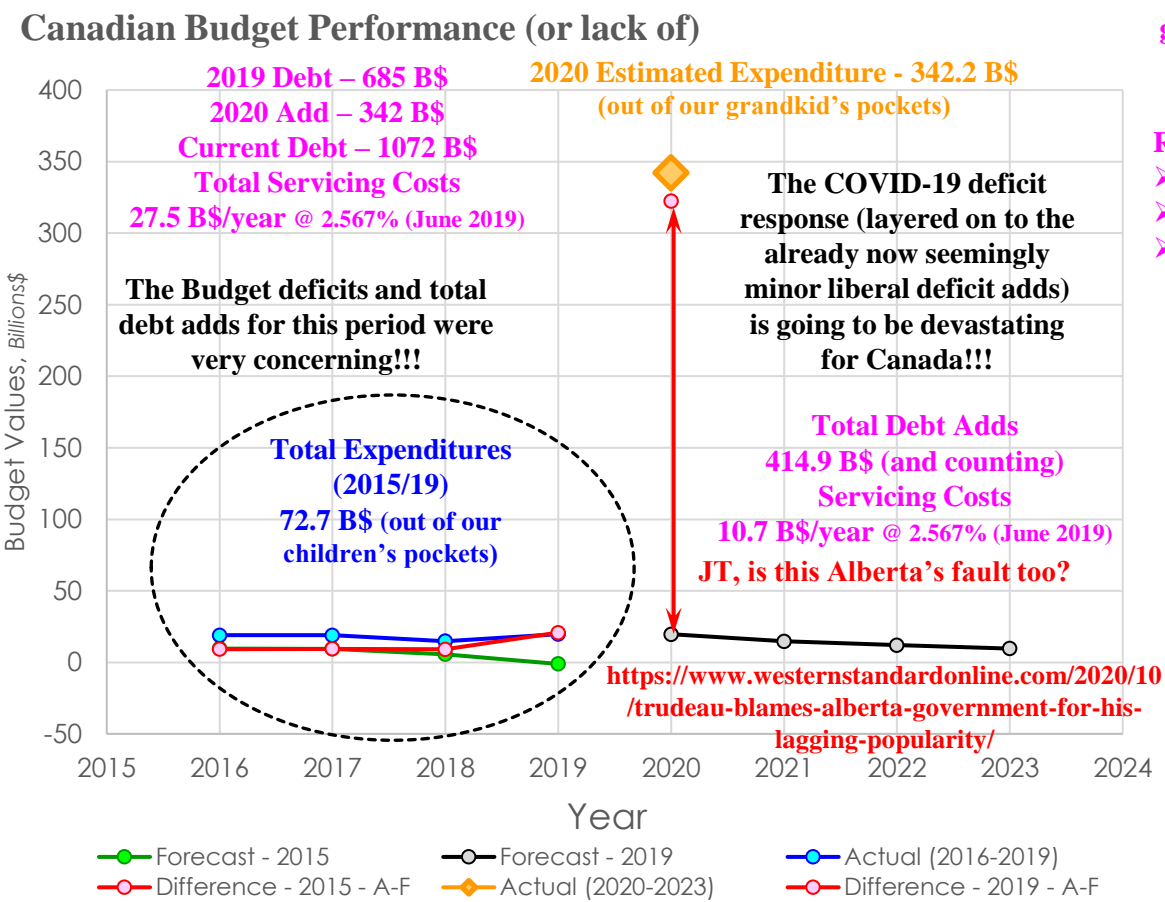

This subject deserves a revisit given that a lot has happened in the last year. Not much of it good! The same question still applies. And unfortunately, the answers are still the same. The scope of the problem has, again unfortunately, magnified significantly. How high will our interest payments get when the financial downgrades kick in and the interest rates rise???

Lies or Incompetence?? Round 2

In my opinion,

Still leaning towards incompetence on the budget, but on the Climate Change file, lying still has the edge but incompetence is making fantastic gains.

More detail? climatechangeandmusic.com

I do need to clarify the definition of lying for this discussion. Justin Trudeau and this Liberal Government are hard to pin down on a lie since they rarely answer questions that are asked of them. They are however guilty of a long list of lies of omission (examples below).

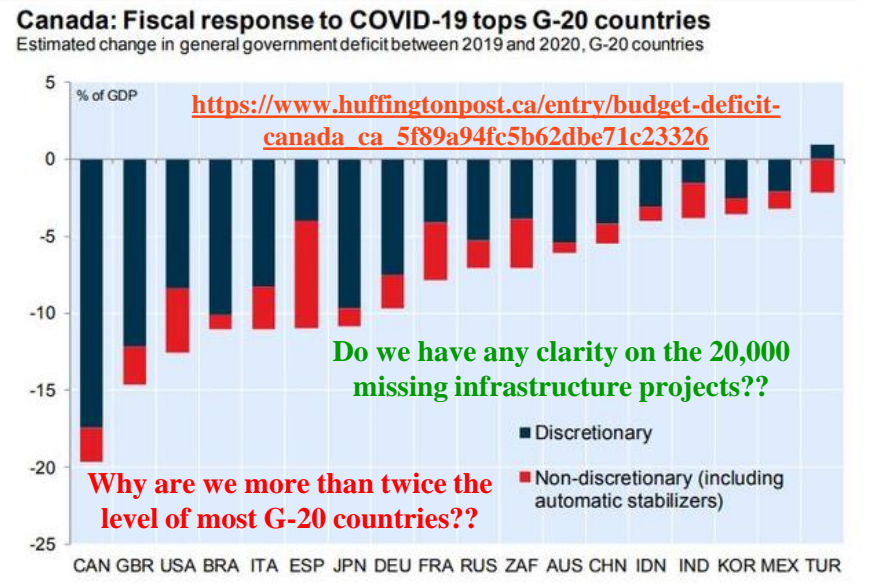

Aga Khan (ethics scandal), Blackface, Groping Allegation (a female Reporter in Creston BC), SNC Lavalin (our feminist PM did not show much respect to Jody Wilson-Raybould and Jane Philpott as he dumped them from the Liberal Caucus), WE Charity (proroguing parliament to avoid this one), Vice-Admiral Mark Norman (to mention a few).

- <https://nationalpost.com/opinion/conrad-black-remember-the-real-scandals-of-the-trudeau-government>

The Climate Change topic was dealt with in OPPS-1 (and my website). All I will add here is a comment as to how stupid this Liberal government is, given that they are still pushing their wildly uneconomic plans for a green recovery, a relentless attack on Alberta and the energy industry and the continued transfer of our taxpayer money overseas.

- Recovery from the COVID-19 crisis will require
- a healthy, growing energy industry,
 - keeping our taxpayer money in Canada,
 - and, not wasting capital on uneconomic, ineffective wind, solar, EV, etc.

“Twice already, Canada's conflict of interest and ethics commissioner, has found the prime minister violated ethics rules. The first occasion was in 2017, when former commissioner Mary Dawson ruled on **Trudeau and his family accepting a vacation on the Aga Khan's private island in the Bahamas**. The second occasion was just last year, when the current commissioner, Mario Dion, found that **Trudeau had tried to influence then-justice minister Jody Wilson-Raybould to overrule a decision not to grant a deferred prosecution agreement to SNC-Lavalin.**” Link below.
