

Trudeau needs an unfettered energy industry for both CV-19 financial recovery and GSM survival!

I have serious concerns related to the so called "Great Reset". This is a United Nations sponsored push to a One World Government (i.e.: the New World Order (NWO), unelected, unaccountable and corrupted, the newest face of socialism/communism/fascism). Justin Trudeau, Joe Biden and all their idiotological (not a typo) cohorts are solidly onboard. Agenda 21, 2030 Agenda and the Great Reset are discussed in more detail in [OPPS-8](#) and [OPPS-9](#) (with links). Time to Wake Up People. The time for action is running out.

**So, what can we do to protect our children and grandchildren from the totalitarian regime that the UN is currently conditioning us for (with lockdowns, line ups and other dictatorial decrees) and trying hard to put in place sooner rather than later?**

Note: The US will NOT be strong or for its citizens under Biden (or more accurately his handlers)!

If Joe Biden wins (despite the "alleged" fraud), there is little political hope for the world unless US (primarily) and other world citizens take a stand and fight directly against this path to socialism.

This post is a potential scenario to combat the dystopian future that socialism always leads to (can you say Venezuela, Cuba, etc.).

A Middle America that includes Western Canada would be strong enough to stand up to the rest of the world. We would be self-sufficient in energy, natural resources and food production with access to tidewater. And we would have the ability to supply those resources to the rest of the continent (and the world).

## US & Canada Reimagined

When the full Grand Solar Minimum (GSM) kicks in, all those energy and agricultural assets will be required just for our own survival.

The world's largest and most powerful country!

Re-imagining the United States and Canada  
Trudeau will not abandon his green ideology. So, either he has to go or we, the West need to go!

The swing jurisdictions will have to make up their own mind on the direction they take. Based on US election DAY results, they will lean to Middle America!

Western Canadian Separation is a real and ultimately necessary alternative, but will require more than just a stand alone position to stand up to the NWO.

We would have more control of our own destiny in a new Republic than our current "Democracy".

West Coast

It is time to let the US coastal and Eastern Canada's elite go their own way with their own ideologies!

The GSM is an imminent danger unlike the Catastrophic Anthropogenic Global Warming (CAGW) narrative
