**Solar Winds Inc.**  
**SVI Connections – China, Obama/Clintons, etc.**  
 China's influence (economically, militarily and politically) around the world has been growing very rapidly over the last several decades (apart from Trump's 4 year speedbump). That plan (originally scheduled for 2049) has been accelerated (even if Biden wins). Importantly, China is not acting alone. Globalists around the world (Trudeau, Obama/Biden (Dems in general), the UN, EU, etc.) are actively colluding with China (or at a minimum sitting on the sidelines).

The UN push towards global socialism/communism, totalitarianism (whatever you want to call it) has been accelerated with the "Great Reset" (consolidating the old standard "Global Warming/Climate Change/Disruption/Emergency/(Latest Descriptor)" with the COVID-19 fiasco). Agenda 21 and the 2030 Agenda are still the blueprint. China has been successfully buying influence in the entertainment, financial, media and the political arenas for a while. Some of the more prominent money players (Chinese Investment, Foundation Donations, etc.) are highlighted (\$) on the map. Question, does Hunter Biden's laptop contain the blueprint for illegal Global money flow?

The financial community should have its own weed patch. Just ran out of room (especially in the NE States). Not everyone here has direct financial ties to the Chinese, but they are linked through the Democratic Party and their weak stands on China policy. Which Green New Deal proponents are protesting Chinese coal plant construction, etc. Obama/Biden lethargy 2.0 coming soon.
